370 MHz – 6 GHz Broadband Horn Antenna P/N 00-60432

The Microwave Specialty Company 370 MHz – 6 GHz broadband horn antenna is designed for telemetry, UAV, and test & measurement applications. The antenna is manufactured from aluminum and hard anodized for corrosion resistance. The universal antenna mount may be customized per customer requirements.

Antenna Specifications	
Frequency	370 MHz – 6 GHz
Gain	3.0 – 16.0 dBi
VSWR	1.6:1
Cross Polarization	> 27 dB
Interface	Type N (f)
Polarization	Linear
Power Handling	350 W CW / 500 W Peak
Impedance	50 ohms
Dimensions	14.5 x 11.2 x 19.1 inches
Weight	9 lbs
Mechanical Interface	Universal Mount
